Toots Cunha, the victim of the Puna-hou hazing, is out today and is said to be able to play ball again.

**JAPANESE PIMP CASE.**

The case of the United States against Miami, charged with importing a Japanese woman for immoral purposes, is on trial before United States Judge Estee today. The woman whom Miami is charged with having brought for such purposes is said to be his sister.

When a wage-earner dies, his family will be saved from humiliating poverty if he has only exercised the foresight to provide for their necessities through a wise life insurance policy. The "New York Life" policies are the right kind for family protection. Henry Waterhouse Trust Company will show how they work and what they cost. Office open daily (except Sunday) from 8:30 a. m. to 4:30 p. m. Evening appointments made on request.

**THOUGHT HE WAS BACK IN THE ARK**

ISAAC NOAR HEARD MEMBERS OF HOUSE DEBATE THIS MORNING OVER PAYING HIS CLAIM.

Practically the entire session of the House this morning was occupied with a discussion of an item to remunerate Isaac Noar for alleged damages resulting to him by the government having taken some of his property on Fort street where the Myrtle block was located.

The House took up the consideration of the emergency appropriation bill but the consideration was interrupted by Andrade who asked that the report of the Judiciary Committee on the Noar item be received first before the appropriation bill proper, was discussed. The consideration of the bill was deferred and the report was then read.

The report recommended that an item of \$1,465.50 be inserted in the bill to repay Isaac Noar, who had petitioned the House on the subject, for the damages sustained by reason of the government taking the property in question, on Fort street. This was at the rate of \$1.50 per square foot. No action was taken before adjournment.

**FLAGS AT HALF MAST.**

The flags on the cruiser Yorktown and at the Naval Station are at half mast yesterday out of respect to the memory of the late Admiral Belknap. The flags were half-masted recently at the naval station but as the Yorktown has not observed this mark of respect by reason of being at sea when the ceremony was elsewhere observed, she is late in observing it. The Yorktown is likely to remain here until next week, as it was planned for her to be in Honolulu about ten days and she arrived only last Sunday from Yokohama.

The very latest advices from the money market were to the effect that everybody in the market was still in hot pursuit of money.—Philadelphia Inquirer.

**WAIL FROM THE UNWASHED**

(Continued from page 1).

House with a list of the names of those engineers and firemen connected with the pumping plants of the city, who have quit work; also the reasons why said pumping plants are not running.

Very respectfully,

SOLOMON MEHEULA,

Clerk House of Representatives.

Superintendent Cooper had the pumping started by about 9:30 this morning, and the men were all paid their back salary during the morning. Cooper gave his personal check for the amount due the men, \$782 and the hard times at are over in the pumping stations.

"This morning the banks appeared ready to advance the money to the government, taking vouchers," said Superintendent Cooper, but later when this was tried they preferred some other way, with the result that I gave my personal check, for the necessary amount."

**LIMA WILL NOT QUARANTINE**

Associated Press Cable to the Star.

LIMA, Peru, May 21.—The report that this city will order a quarantine against San Francisco is denied.

**WORCESTER TO VISIT HOME**

Associated Press Cable to the Star.

MANILA, May 21.—D. C. Worcester, Secretary of the Interior Department of the Philippines, has been granted a leave of absence and will visit the United States.

**STEAMER STOPS FOR ORDERS.**

The British steamer Yeddo, Captain Baird, arrived off the port at 10:30 a. m. today, 22 days from Newcastle. She came for orders. Shipping Commissioner Holt boarded her and gave her orders which were to proceed to San Francisco. The vessel has 6119 tons of coal. She did not enter the harbor, but proceeded on her way.

**Chinese Coolies In Samoa**

THE NEW CONTRACT LABORERS JUST IMPORTED ARE HELD UNDER VERY STRICT REGULATIONS—IT IS REPORTED THAT SOME OF THEM HAVE RUN AWAY ALREADY—SUPPLIED WITH LEGITIMATION PAPERS.

APIA, May 9.—Every one of the newly imported Chinese laborers will be supplied with a legitimation paper with a number thereon, so that anyone who leaves his employer can be easily traced. Any laborer who desires to come into Apia must get a written order from his employer; and anyone found at large without his employer's order will be arrested.

It is rumored that several Chinamen have run away owing to their being insufficiently supplied with food.

This may be true, and it may be not; but we hear that the laborers are imported from different districts, and speak several different dialects; so it stands to reason that if one man finds himself amongst a crowd of practically a different nationality to himself, with whom he cannot speak or make friends, he has a just cause for complaint.—Samoanische Zeitung.

**THE CUP RACES.**

It is gratifying to learn that the accident to Shamrock III will not cause a postponement of the America's cup races, beginning August 20 next. Sir Thomas Lipton is not only a good loser of cup races, but he stands up well under the strain of having his crack boat stripped in a moment of its rigging. His own injuries are not even considered. Fortunately they are not serious, but they might easily deter many another yachtsman from pitching in and hustling night and day to repair the damage and get the boat over here in season to keep the engagement. His cablegram to the secretary of the New York Yacht Club announcing that there need be no postponement is an assurance that in good season Shamrock III will enter New York bay in trim for perhaps the finest regatta ever sailed for the great trophy. The accident of last week is the fourth of the kind which the cup yachts have suffered since the steel masts were adopted. Two of these have occurred to American yachts and two to the Lipton boats, so that troubles are even in this respect. The steel masts, being hollow, are liable to "buckle" when the pressure becomes too strong, or when an exceptional strain comes by reason of the giving way of a stay. Everything about these racers is turned down to the most minute finish and finesse. Thus the giant mast which buckled the other day, although 155 feet long and 2 inches in greatest diameter, is composed of nickel steel only three-sixteenths of an inch in thickness. The marvel is that these spars do not break oftener. But if they must break it is well that they do so in the trial races, in order that the weakness may be remedied in time. A break during one of the cup races would be deplorable in the extreme, and yet yachtsmen hold that a yacht which cannot stand up under all kinds of weather in the actual regatta is by that fact ruled out of the race. The competition is not only one to secure the greatest speed, but to compromise most skillfully the speed necessities with the strength requirements. Every ounce taken off to lighten the boat and increase her sailing qualities increases at the same time the chances of a breakdown. Thus the designer and builder who puts up a boat which may collapse on the very verge of victory takes his chances in the general contest of elements. Still, no American wants to retain the cup by reason of an accident, even though that accident may prove that we can make stronger racers.—Washington Star.

**WORSHIP OF TEETH.**

Teeth of all kinds have been worshipped, and are, in fact, venerated as relics in some religious shrines. Buddha's tooth is preserved in an Indian temple; the Cingalese worship the tooth of a monkey, while an elephant's and a shark's tooth serve a similar purpose among the Malabar and Tonga Islands, respectively. The Siamese were formerly the possessors of the tooth of a sacred monkey, which they valued very highly, but in a war with the Portuguese they lost the holy grinder, and had to pay \$3,500,000 to get it back again. It is now kept in a small gold box, inclosed in six other boxes, in one of the many temples of the Siamese capital.—New York Tribune.

**A NOBLEMAN****VISITS APIA**

THE EARL OF CRAWFORD AND HIS PLEASURE AND SCIENTIFIC CRUISE IN SOUTH SEAS.

APIA, May 2.—On the 24th ultimo the steam yacht "Valhalla," a full-rigged ship of the Royal Yacht Squadron, arrived, having on board the owner the Earl of Crawford. The vessel left England in November last, and called at Bahia, Valparaiso, Easter Island, Fitch Island, Tahiti, Tutuila, and other places before coming here. She left for Coores, via Fiji and Singapore and Suez, on Wednesday last. The master's name is J. G. Cairns. The vessel including captain and officers number 61 persons. Her register is 1490 tons. She steams ten and sails fourteen knots. The Earl was formerly in the Grenadier Guards and is still a colonel of Volunteers. He sat in the House of Commons for six years before he succeeded to the title. He is one of the trustees of the British Museum and has been President of the Astronomical Society. He is also F. R. S. His son and heir is Lord Balcarras, a Lancashire M. P., who takes a deep interest in artistic matters.

The Scottish title dating from 1598 and 1651, is the Earl of Crawford and Balcarras. As member of the English peerage the title is Baron Wigan.

Three gentlemen accompanying His Lordship, Major Kennedy, Dr. Macdonald and Mr. Nicol, a naturalist attached to the British Museum.

**FOUGHT WITH FISTS FOR LOVER**

TWO CHICAGO GIRLS GO INTO PRIZE RING AND FIGHT FOR SWEETHEART.

To settle their rival claims to the affections of a man, two Evanston young women, Jeanette Smith and Minnie Walsh, engaged in a fistie duel in a fashionable section of the suburb a few nights ago. The details of the fight came to the Evanston police yesterday.

In the affaire d'honneur the two blackened each other's eyes and exchanged uppercuts, hooks and swings in true pugilistic style, while women friends of the principals and Robert Oldgren, the sweetheart in the case, stood by and applauded. The latter, acting as referee, was compelled to count one of the participants out after she had been knocked down and to award the decision to her vanquisher.

According to information given the police, the encounter took place either last Monday or Tuesday night in a vacant lot at the corner of Oak avenue and Dempster street, a very fashionable residence section of the town. In a ring marked off in typical prize-fighting style, it is said Miss Smith and Miss Walsh pommelled each other in a scientific, but none the less effective, manner. Both, according to the report, were badly bruised and winded by their active exertions.

Two other young women, Alice Kram and Rose Blakeley, acted as seconds, the former supporting Miss Smith and the latter Miss Walsh. When the Smith girl was put out by a well-directed blow from her opponent, she was assisted home by her second.

The two girls have been rivals for the attentions of Oldgren, it is said, for over a year. They met on the street while one of the pair was in the company of Oldgren. Words followed, and the challenge to the fistie duel ensued.—Chicago Inter-Ocean.

**A ONE CENT SWINDLE**

WASHINGTON MAN OBJECTS TO SLOT MACHINE THAT DOESN'T WORK.

WASHINGTON, D. C., May 1.—A charge involving the smallest amount of money ever brought to the attention of the police was received at the first precinct police station yesterday afternoon. Harry Mills, who told the police that he labors for Uncle Sam in room 423 of the Post Office Department, entered the complaint, and a cent was the amount. He said he put a cent in a slot machine in front of the Enterprise lunch room on E street, and the expected piece of chocolate failed to come out. He further stated that the proprietor of the lunch room refused to refund him his money.

As the slot machines of this kind are permitted by legal authority the police concluded that it was a civil matter, and said they could not see how they could do anything which would cause the return of the cash. It is stated that the proprietors of the places in front of which most of the machines are placed have nothing to do with them except to receive their percentage of the profits, and that any money advanced by them would not be returned. A cent that is much worn is of no use in some of the machines, and when put in it will not cause the operation of the machine.

Mr. Mills' remedy, the police say, is

**CONFIDENCE**

said Lord Chatham, "is a plant of slow growth." People believe in things that they see, and in a broad sense they are right. What is sometimes called blind faith is not faith at all. There must be reason and fact to form a foundation for trust. In regard to a medicine or remedy, for example, people ask, "Has it cured others? Have cases like mine been relieved by it? Is it in harmony with the truths of modern science, and has it a record above suspicion? If so, it is worthy of confidence; and if I am ever attacked by any of the maladies for which it is commended I shall resort to it in full belief in its power to help me." On these lines

**WAMPOLE'S PREPARATION** has won its high reputation among medical men, and the people of all civilized countries. They trust it for the same reason that they trust in the familiar laws of nature or in the action of common things. This effective remedy is palatable as honey and contains the nutritive and curative properties of Pure Cod Liver Oil, extracted by us from fresh cod livers, combined with the Compound Syrup of Hypophosphites and the Extracts of Malt and Wild Cherry. It quickly eradicates the poisonous, disease-breeding acids and other toxic matters from the system; regulates and promotes the normal action of the organs, gives vigorous appetite and digestion, and is infallible in Prostration—following Fevers, etc.—Scrofula, Influenza, Asthma, Wasting Diseases, Throat and Lung Troubles, etc. Dr. W. A. Young, of Canada, says: "Your tasteless preparation of cod liver oil has given me uniformly satisfactory results, my patients having been of all ages." It is a product of the skill and science of to-day and is successful after the old style modes of treatment have been appealed to in vain. Sold by all chemists,

by civil suit, and they would like to see the question tested in the courts, in order to determine the course of procedure should any more reports of this kind be received.

Teacher (to little six-year-old)—Now Freddie, what is a volcano?  
Freddie (with great confidence)—Oh, I know that! It's a mountain that interrupts all the time!—Life.

**NEW ADVERTISEMENTS**

IN THE DISTRICT COURT OF THE UNITED STATES FOR THE TERRITORY OF HAWAII—IN BANKRUPTCY.

In the Matter of )  
the C. F. Herrick ) In Bankruptcy.  
Carriage Co., )  
bankrupt )
